

## Corbière Lighthouse Fog Horn Decommissioning - Consultation Paper

Corbière fog horn is reaching the end of its life and it is the intention of Jersey Harbours to decommission the fog horn in 2016. Decommissioning is based on the International Association of Lighthouse Authorities (IALA) opinion that in many cases modern navigational aids have rendered large, long-range foghorns unnecessary.

The characteristics of Corbière Lighthouse will remain unchanged and as charted.

Comments are being sought from all those who navigate in Jersey waters and in particular those who navigate in the vicinity of Corbière Lighthouse to assist in the decision-making for the future of this sound signal. A review of comments will be undertaken by the Harbour Master prior to any changes and a full review of comments made during this consultation period will be published on Ports of Jersey website, [ports.je](http://ports.je)

Comments are to be directed to Ports of Jersey Marine Operations Manager by emailing [peter.lawrence@ports.je](mailto:peter.lawrence@ports.je) or in writing to the following address for the attention of Marine Operations Manager.

Ports of Jersey  
Maritime House  
St Helier  
Jersey  
JE1 1HB

This consultation will close on Saturday 31 December 2015.

**Captain P J A Buckley**  
Harbourmaster, Jersey Harbours

10 November 2015
