	Fog Disruption Hours	Scheduled Open Hours	Percentage %	
	Cat 1	LTS Cat 1	Cat 1	LTS Cat 1
Total	45.7	26.3	0.8%	0.5%

- 1) Data for May 2016 comprises the average for the period from Jan-May 2016, from that point onward PoJ began tracking the data monthly;
- 2) Cat 1 Fog represents the number of hours where visibility conditions prevented ILS Category 1 movements on the runway;
- 3) LTS Cat 1 Fog represents the number of hours where visibility conditions prevented Lower than Standard Category 1 movements on the runway. Lower than Standard Category 1 (LTS) are procedures introduced by Jersey Airport in 2012 where aircraft with particular equipment installed, and pilots trained on using that equipment on Jersey Approaches, can land in worse conditions than standard Category 1 ILS;
- 4) Scheduled Open Hours represents the scheduled number of hours Jersey Airport is open for commercial passenger travel (0700-2100hrs winter and 0700-2130hrs summer). The airport can be open for longer hours with extensions but we currently measure against our scheduled open hours for Consistency.
