

Notice to Mariners № 12 of 2021

St Helier Harbour | BA3278

Elizabeth Marina Storm Gate Project | Temporary Reduced depth at the marina entrance

Due to the nature of the works, some 'stop logs' have been left in place which has resulted in a reduced depth of 50cm over the cill at the entrance to the marina.

- The wall gauges and electronic gauge will be adjusted to reflect this reduced depth

Any changes to this will be communicated in a further Notice to Mariners.

Captain Bill Sadler
Harbour Master, Jersey Harbours
