

PERMANENT NOTICE TO MARINERS No 02 of 2013

ST CATHERINES BREAKWATER

JERSEY EAST COAST (Charts BA1136 and BA1138)

ST CATHERINE'S BREAKWATER EXTENDING ROCK ARMOUR

Mariners are warned that the rock armour protection extends at least 15 metres outwards from the base of St Catherine's Breakwater Head.

The presence of strong tidal streams in the area could cause small craft to be swept onto these rocks. It is recommended that all vessels keep at least 50 metres clear of the breakwater head.

Barry Goldman CBE
for Harbourmaster
10 January 2013

Mariners are advised that telephone calls, VHF radio traffic, CCTV and radar traffic images may be recorded
